WORLD SOCIETY OF INTRA VENOUS ANAESTHESIA

INTERNATIONAL SIMPOSIUM ON: "NEW TECHNOLOGY CAN IMPROVE SAFETY AND QUALITY IN ANAESTHESIA AND INTENSIVE CARE?"

World Commission on Quality and Safety – WFSA – WHO
CEEA (Committee for European Education in Anaesthesiology)

h. 09.00 Greetings from the President of Congress

I SESSION

Chairmen: H. Bilgin, T. Hemmerling

- h. 09.30 Q. Piacevoli (Italia): Technological intensification in anesthesia and intensive care: The issue of complexity.
- h. 9.50 F. Rubulotta (UK): Peri-operative management for robotic surgery: the new era!
- h. 10.10 L. Sermeus (Belgium): Safety recommendations when performing peripheral nerve blocks
- h. 10.30 H. Bilgin (Turkey): A window on the brain: what technologies we can use?
- h. 10.50 E. Shifman (Russia): Safety of the use of uterotonics in caesarean section.
- h. 11.10 *Coffee Break*
- h. 11.50 B. Bagi (Serbia): Cervical epidural anaesthesia: Is it a safe alternative?
- h. 12.10 L. Heyer (France): Can you teach old models new tricks? – Individualizing liver transplant immunosuppression using a phenotypic personalized medicine platform
- h. 12.30 D. Chiumello (Italia): How do I manage my ARDS patients
- h. 12.50 E. Ivanov (Macedonia del Nord): Anesthesia for patients with respiratory failure (prevention of postoperative pulmonary complication)
- h. 13.10 *Lunch*

II SESSION

Chairmen: A. Gomez, K. Kuczkowski

- h. 15.00 M. Shalabi (Emirates): Enhanced Recovery After Surgery (ERAS): the ultimate model of peri operative Medicine. The role of Anesthetists
- h. 15.20 K. Kuczkowski (USA): Trauma in pregnancy
- h. 15.40 J. Kurata (Japan): What does brain imaging tell us about pain?
- h. 16.00 A. Shwe Saw (Myanmar): New technologies in the emerging countries
- h. 16.20 B. Drenger (Israel): The Operating Theater: A Source for Sustainable Environmental Health Threat
- h. 16.40 T. Hemmerling (Canada): Robotic anesthesia
- h. 17.00 A. Gomez (Philippines): Towards a Closed-Loop Anesthesia Delivery System
- h. 17.20 R. Rasiah (Malaysia): Quality and Safety in Anesthesia in Malaysia
- h. 17.40 E. Cheung So (Taiwan): Propofol may increase caspase and MAPK pathways, and suppress the Akt pathway to induce apoptosis in MA-10 mouse Leydig tumor cells
- h. 18.00 L. Yang (China): A glimpse into the development in Anesthesiology in China
- h 18.20 Closing Ceremony – CME Questionnaire
