

## Alex Sia

has been CEO of KKH since 2017, transforming it into a leading global Academic Medical Centre for women and children's health.

Under his leadership, KKH established the Maternal and Child Health Research Institute, boosting research, clinical care, and international collaborations.

In 2024, KKH ranked 9th among Asia-Pacific's Best Children's Hospitals. Alex holds three patents, co-founded med-tech startups, and developed groundbreaking medical technologies.

As one of the top-ranked researchers in obstetric anesthesia, he is recognized globally for his influential contributions to pain management and innovation.
