## CAREER SUMMARY

---

A General Consultant & Pediatric Anesthesiologist with over 10 years of experience. Holding an MBBS and multiple certifications, including the Saudi Board in Anesthesiology and the European Diploma in Anesthesiology and Intensive care, I excel in clinical and leadership roles. Notable achievements include leading healthcare transformation projects and pioneering one-stop clinics. My expertise spans anesthesiology, policy development, and strategic planning, establishing me as a visionary leader in the field.

## KEY SKILLS

---

Leadership | Clinical Expertise | Policy Development | Strategic Planning | Team Management | Project Management | Anesthesiology | Pediatric Anesthesiology | Quality Improvement | Regulatory Compliance | Education and Mentoring | Research and Continuous Learning | Cross-functional Collaboration | Resource Optimization | Problem-Solving

## PROFESSIONAL EXPERIENCE

---

Alahsa Health Cluster E2, Saudi Arabia, Jan 2022 - Present  
**Planned Care (Model of Care) System Lead**

- Guided a team in optimizing patient experiences and outcomes by establishing one-stop clinics and home care pathways, streamlining patient journeys, and improving care continuity.
- Focused on pathway optimization, reducing length-of-stay, and introducing step-down services, significantly improving operational efficiency and patient satisfaction.

King Fahad Hospital in Hofuf, Saudi Arabia, Oct 2021 - Present  
**Chief of Anesthesiology Department**

- Managed daily scheduling of elective and emergency cases, overseeing a team of over 50 professionals, which improved efficiency and patient throughput.
- Reviewed and developed hospital policies and procedures, enhancing clinical practices and patient safety.
- Actively contributed to hospital committees, including the Quality Medical Executive and Operating Committee, driving strategic initiatives and operational excellence.
- Led initiatives focused on cost minimization and patient care enhancement, achieving better resource utilization without compromising care quality.
- Collaborated with King Faisal University for educational studies, contributing to academic research and clinical advancements.

Alahsa Health Cluster E2, Saudi Arabia, Jul 2021 - Present  
**Anesthesia Service Line Lead**

- Led strategic planning, budget management, and continuous improvement initiatives, ensuring the service line's growth and operational success.
- Optimized staffing and fostered stakeholder collaboration, enhancing service delivery and operational efficiency.
- Monitored performance metrics and implemented corrective actions, driving continuous improvements in patient care and service quality.

King Fahad Hospital in Hofuf, Saudi Arabia, Mar 2020 - Present  
**General Consultant & Pediatric Anesthesiologist**

- Oversaw diverse cases across specialties such as neonatology, pediatrics, adults, geriatrics, vascular, neurosurgery, and trauma, ensuring comprehensive and specialized anesthesia management.
- Managed anesthesia in remote areas like endoscopy units and interventional radiology suites, significantly improving patient access to safe anesthesia services.
- Actively participated in symposiums and seminars, ensuring the incorporation of the latest medical advancements into clinical practice.
- Educated trainees in the residency program, fostering the development of the next generation of anesthesiologists.

King Fahad Hospital in Hofuf, Saudi Arabia May 2021 - May 2022  
**Deputy of Medical Director**

- During the director's leave, oversee clinical leadership, quality improvement, and medical staff.
- Develop policies, collaborate with leadership, and manage physician recruitment.
- Ensure regulatory compliance and patient advocacy.
