19th Indoanesthesia 2022

February 12th - March 6th, 2022

Live!

WELCOME MESSAGE

Dear distinguished colleagues,

The COVID-19 pandemic has brought numerous obstacles for medical and governmental authorities to efficiently manage this respiratory illness. As anesthesiologist and intensivist, we have been working hard to fight this pandemic. Numerous research and study have been published in order to share knowledge regarding this disease. Last year, 18th Indoanesthesia 2021 was held virtually with more than 4000 registrants coming from more than 60 countries. We had successfully united many healthcare professionals to share experience and learn new knowledge.

We proudly present the 19th Indoanesthesia 2022 which will be held from ... We will present live presentations, panel discussions, and interactive audience-response sessions in the field of anesthesia and critical care medicine. We have invited distinguished speakers who excel at their areas of expertise and working groups to share their knowledge and experience in anesthesia and critical care medicine. It promotes top level research and to globalize the quality research in general, thus making discussions, presentations more internationally competitive and focusing attention on the recent outstanding achievements in the field of anesthesia and critical care medicine.

We would like to express our sincere appreciation to all future participants, financial sponsors, exhibitors, and all the committee members who will make this 19th Indoanesthesia 2022 successful. We are looking forward to an excellent virtual congress with great people from different countries and sharing new and exciting insights. Thank you and stay safe!

Warm Regards,

Susilo Chandra, MD, FRCA
